

EZ PRO™ Controller

New for 2001 – Nelson introduces the EZ Pro™ Series of irrigation controllers. These units are ideal for residential and commercial applications. A step-up from the SmartZone EZ™ line of controllers, the EZ Pro continues to offer the superior electronics and flexible programming expected from a professional controller. Easy-to-use dials and buttons, front panel electronics are encased for added protection, and the EZ Pro is radio compatible with the EZ Command™ Remote Programmer. With the EZ Command, irrigation freedom is at your fingertips - everything you can do at the controller, you can do with the remote.

- 8604 (8674) - 4 zone
- 8606 (8676) - 6 zone
